DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 23 August 2004 has been entered.

Allowable Subject Matter

2. Claims 5-10 are allowed.
3. The following is an examiner's statement of reasons for allowance: In the remarks filed 23 August 2004, applicant noted that the reference relied upon by the Examiner in rejecting the claims is not prior art, since the effective filing date of the instant application precedes the filing date of the reference. The Examiner agrees with applicant.
4. Thus, regarding independent claim 5, the prior art of record neither shows or suggests a board for a plasma color display comprising, in addition to other limitations of the claim, phosphor layer stripes formed in grooves between respectively adjacent barrier ribs, wherein two or more phosphor layer stripes emitting light of the same color are formed in respectively adjacent grooves. Due to their dependency upon independent claim 5, claims 6-10 are also allowable.
5. The subject board for a plasma color display having two or more phosphor layer stripes emitting light of the same color formed in respectively adjacent grooves is provided for allowing a well-balanced brighter color image to be displayed. The design is new and unique to the art.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
